All,

Attached is a Word version of the SOF we discussed today at the exit conference with GAO. Bob and I would like each program office and region to put their error corrections and comments into the Word version of the document and return to us NLT COB Tues May 29th. We will merge all edits and comments into one master document and send back out for a 1-day review before sending off to GAO.

As this SOF is relatively thin on details, it may make sense to not put a lot of effort into this document but save that effort for the draft report that will come out in mid-June.

Hi Mark,

Attached is a word version. We have not incorporated the changes from the meeting this afternoon into the document, but we have those documented and will address in the full draft version.

Thanks,  
Jay

Jay,  
Would it be possible to get a Word version of the 361350 SOF so that we can put comments and suggested edits directly on the pages?  
It would further helps us by allowing us to merge comments from the various program offices that will be providing technical corrections and comments.  
Thanks,  
Mark
